**Minutes of board of studies**

The board of studies was conducted through online mode. The members of board of studies met on 12.09.2020 at 10.00 am (10.00 am-2.00 pm) through Google meet to discuss about the changes to be carried out in the existing curriculum. The members of the board discussed elaborately the entire syllabus and given a valuable suggestion for addition, deletion, changes/rearranges and incorporation of new courses. It is resolved to carry out the following changes in the existing curriculum without change in the basic structure of the curriculum (Total number of cores, credits and hours). Physical methods in chemistry-I and II and polymer chemistry are changed and bifurcated in to organic chemistry-III, Inorganic chemistry-III and physical chemistry-III. Two new units are framed for each of all the three new courses. Paint chemistry is changed in to Material chemistry. NO change in the M.Phil program.

The board strongly accepted and considered the employers feedback to include and update the existing curriculum in the international standard, in view of this, the board introduced new course "Material chemistry" in PG and many content included in UG and PG by referring foreign universities, National university of Singapore, Nanyang Technological University Singapore, Northwestern University, University of California and Stanford University.

**MOOC:** Massive open online course is introduced in the second and third semester of PG and the third and fourth semester of UG programs as an extra credit course from this academic year 2020-2021. Students can avail any one or more of the courses available in MOOC to equip their skill and knowledge themselves.

**MASTER OF BUSINESS ADMINISTRATION**

The internal board of studies meeting was held on 12/09/2020 at 10.00a.m and the following decisions were unanimously taken after detailed discussion.

The members discussed about the Master of Business Administration syllabus and have framed the subjects based on the syllabus of Standard Universities including foreign Universities.

It is resolved that equal distribution of hours and credits are given to each semester and that the new papers have introduced for MBA Programme.

The department of management studies has enriched the three foreign University syllabuses, say Anaheim University, California USA, Kellogg Scholl of Management and Northwestern University, USA for the subject of International Marketing, Global HRM and Foreign Exchange and Risk Management, because these subjects help the students to know how the organizations conduct the business in a global market place.

**BACHELOR OF BUSINESS ADMINISTRATION**

The Internal Board of Studies meeting was held on 12/09/2020 at 2.00p.m and the following decisions were unanimously taken after detailed discussion.

The members discussed about the Bachelor of Business Administration syllabus and have framed the Subjects based on reputed Universities.

It is resolved that equal of distribution of hours and credits are given to each semester and that the new papers have introduced for BBA Programme.

It is resolved that at least two books written by foreign authors be given as the text book.

Name of the programme	Designation	Year of affiliation
B.Sc.	Geography	2013 – 2014

### **PROGRAMME OUTCOMES**

#### **Undergraduate**

##### **The program outcomes of B.Sc. in geography are:**

- Demonstrate, solve and an understanding of major concepts in all disciplines of Geography.
- Study the types of land and processes.
- Understand the structure, composition of different spheres of the earth and its atmosphere.
- Understand importance of oceans, rivers and water and find the ways of their conservation.
- Understand the Function and types of Biogeography.
- Understand the science of Remote Sensing.
- Demonstrate knowledge of the foundations and theories of geographic information systems (GIS) and use the tools and methods of GIS.
- Demonstrate their knowledge of physical geography and the methods and techniques for observing, measuring, recording and reporting on geographic phenomena.
- Create an awareness of the impact of Geography on the environment, society, and development outside the scientific community.
- To inculcate the scientific temperament in the students and outside the scientific community.

### **PROGRAMME SPECIFIC OUTCOMES**

#### **Undergraduate**

##### **The program specific outcomes of B.Sc. in geography are:**

- At the end of the programme, the students will acquire.
- An understanding of and appreciation for the relationship between geography and culture.
- In-depth knowledge in geomorphology particularly formation of landform and its associated processes, world distribution of flora and fauna and their factors, marine resources etc.
- Read, interpret, and generate maps and other geographic representations as well as extract, analyze, and present information from a spatial perspective. A general understanding of how the physical environment, human societies, and local and global economic systems are integral to the principles of sustainable development.

- Handle population data including estimation of population, causes and consequences of population growth, population policies.
- Knowledge on elements, factors of climate and its influence on mankind in a global perspective.
- knowledge on recent space technologies including interpretation of Satellite Imagery, Aerial Photographs, Geographical Information System and Global Positioning System (GPS).

## ***PROGRAMME OUTCOMES***

### **Undergraduate**

The principal aims of objectives of the BA Economics programme are:

- To provide students a well-founded education in Economics.
- To provide structured curricula which support the academic development of students.
- To provide and adapt curricula that prepare our graduates for employment and further study as economists.
- To provide the students with the opportunity to pursue courses that emphasize quantitative and theoretical aspects of Economics.
- To provide students with the opportunity to focus on applied and policy issues in Economics.
- To provide programmes that allow the students to choose from a wide range economic specialization.
- To provide a well-resourced learning environment for Economics.

## ***PROGRAMME SPECIFIC OUTCOMES***

### **Undergraduate**

The UG students will be able to:

- Know about the importance of the subject Economics.
- Explain concepts, terminologies and theories in Economics.
- Know and evaluate the programmes and policies of the government.
- Understand the track of development of Economic theories in a Chronological order.
- Learn the tools in Statistics and know the various sources of data collection, trends in economic variables, Index numbers and its construction statistically.
- Study about basic Macro economic variables, Policies and tools applied.
- Study about basic concepts in money and monetary standards.
- Understand the basic concepts used in Computer and its applications in Economics.
- Apply and Prepare for all the Competitive Examination conducted by both the Central Government and State Government.
- Face the Examination conducted exclusively by Reserve Bank of India and statistical Organizations.
- Pursue higher education in the same discipline that is MA Economics ,M.Sc Statistics and Master of Business Administration etc.

### **PROGRAMME SPECIFIC OUTCOMES**

#### **Undergraduate**

The Programme outcomes of UG in Chemistry are:

- On completion of B.Sc. Chemistry, Students will acquire knowledge about dyes, fertilizers, paints, domestic chemicals preparation, polymers etc. This knowledge will be helpful to get job in dye industry, paint industry and some production departments in pharmaceutical industry and also students are able to become an entrepreneur and to start small scale industry for the

preparation of domestic chemicals like Phenyl, Soaps, Detergents, Computer Sambranti, etc., and also students are able to work in Water analysis lab.

## **PROGRAMMES OUTCOMES**

### **Undergraduate**

**The Program outcomes of UG in B.Sc.Computer Science:**

- An ability to apply knowledge of computing and mathematics appropriate to the discipline.
- An ability to identify, formulate, and develop solutions to computational challenges.
- An ability to design, implement, and evaluate a computational system to meet desired needs within realistic constraints.
- An ability to function effectively on teams to accomplish shared computing design, evaluation, or implementation goals.
- An understanding of professional, ethical, legal, security, and social issues and responsibilities for the computing profession.
- An ability to communicate and engage effectively with diverse stakeholders.
- An ability to analyze impacts of computing on individuals, organizations, and society.
- Recognition of the need for and ability to engage in continuing professional development.
- An ability to use appropriate techniques, skills, and tools necessary for computing practice.
- An ability to apply mathematical foundations, algorithmic principles, and computer science theory in the modeling and design of computational systems in a way that demonstrates comprehension of the tradeoffs involved in design choices.
- An ability to apply design and development principles in the construction of software systems of varying complexity.

**The Program outcomes of UG in B.C.A.:**

- Understand the fundamental concepts of Computers, Business environment and IT Applications in Business.
- Successfully understand & analyze technical data to reach actionable conclusions, including technological solutions to the business.
- Learn technologies & IT languages, so the business problems could be addressed.

- Develop competent technical writing skills so as to enable the graduate to communicate business ideas to senior management and general public.
- To identify and sharpen their IT/ programming skills.

### ***PROGRAMMES SPECIFIC OUTCOMES***

#### **Undergraduate**

The Program Specific outcomes of UG in B.Sc.Computer Science:

- Ability to apply knowledge of computing, mathematics, and basic sciences that may be relevant and appropriate to the domain.
- Ability to analyze a problem, identify and define the computing requirements, which may be appropriate to its solution.
- Ability to design, implement, and evaluate computer-based system, process, component, or program to meet desired needs.
- An ability to function effectively on teams to accomplish a common goal.
- Understanding of professional, ethical, legal, security, social issues and responsibilities.
- Ability to communicate effectively among a range of audiences.
- Ability to analyze the local and global impact of computing on individuals, organizations, and society.
- Recognition of the need for and an ability to engage in continuing professional development.
- Ability to use current techniques, skills, and tools necessary for computing practices.
- Ability to use and apply current technical concepts and practices in the core development of solutions in the form of Information technology.
- Ability to identify and analyze user needs and take them into account in the selection, creation, evaluation, and administration of computer-based systems.
- Ability to incorporate effectively integrate IT-based solutions to applications.

The Program Specific outcomes of Ug in B.C.A:

- All theoretical concepts are implemented in practical which make a student industry ready.
- Content of the course prepare a student for self entrepreneurship.
- The syllabi of the course are a good platform for higher level course in computer application.
- The course is designed to support automation and digitization in all walks of life.

#### ORDER:-

In the Government order first read above, orders have been issued to introduce online registration of application for Tamil Nadu Government Arts and Science Colleges Admission (TNGASA) from the academic year 2020-21.

2. In the Government order second read above, guidelines for admission of students to UG/PG Courses in Government / Government Aided / University Constituent/Self-financing Colleges of Arts and Science for the Academic year 2020-21 were issued.

3. In the letter third read above, the Director of Collegiate Education has stated that a Committee headed by the Director of Collegiate Education comprising of Joint Director (Finance), Joint Director (Planning & Development), Assistant Director (self-financing colleges), Directorate of Collegiate Education and Principals of various colleges was constituted for framing of guidelines for admission of students to UG/PG Courses in Government / Government Aided / University Constituent / Self Financing colleges of Arts and Science in Tamil Nadu. The Committee has recommended to make certain changes to guidelines issued for admission of students to UG/PG Courses in Government/ Government Aided/Unaided colleges of Arts and Science in Tamil Nadu for the Academic year 2020-21 and requested the Government to issue necessary orders on the guidelines for admission of students to UG/PG Courses in Government /Government Aided / University Constituent / Self-Financing Colleges of Arts and Science in Tamil Nadu for the Academic year 2021-22.

4. The Government after careful examination approve the guidelines for admission of students to UG/PG courses in Government / Government Aided/ University Constituent / Self-Financing colleges of Arts and Science in Tamil Nadu annexed to this order, for the academic year 2021-22 and direct that the said guidelines be followed strictly.

## **DISTINGUISHED MEMBERS OF THE ACADEMIC COUNCIL AND SPECIAL INVITEES!**

It is indeed a great pleasure bestowed upon me to welcome you all on this happy occasion of the meeting of the 34<sup>th</sup> Academic Council of this great edifice, A.V.V.M. Sri Pushpam College, Poondi.

Started by Rao Bahadur Shri. A.Veeriya Vandayar and his illustrious brother Shri. A. Krishnaswamy Vandayar of Poondi with a far-sighted vision of educating the rural masses, the motto of the College is “to learn and to serve”. The Secretary and Correspondent of the college, Shri. K.Thulasiah Vandayar has a vision to offer quality academic programmes and value oriented higher education to the rural community in Tamil Nadu to equip them to meet the challenges of time in terms of regional, national and global demands with moral standards and quality.

The Mission of A.V.V.M. Sri Pushpam College (Autonomous) is to build leadership qualities, competent minds and form compassionate hearts. The college imparts a practical, demanding and overall development of the personality generated by love, consideration and care for society. The college offers a wide range of needs, interests and programmes within a challenging, supportive and conducive environment for the clear vision of the future and to apply it for the betterment of the nation. The Vision and Mission is reflected in the trust document of the college that declared to serve and empower the downtrodden people of this rural agrarian backward area in the fields of Education and Technology.

The **33 years** of the status of **Autonomy** conferred on this 6 decades plus institution, very closely on the verge of **Diamond Jubilee** has paved the way for the phenomenal growth in physical atmosphere and the academic ambience of this colossal institution.

The purpose of education is to bring out the latent talents in the students, to imbibe them with social and cultural values and to mould them into responsible citizens useful to their family, society and nation at large. Bearing in mind these aspects and aspirations, to cater to the needs of the students, changes are carried out in curriculum, content and design of the courses. The aim of this august annual assembly of academic stalwarts is to pinpoint broadly the course of academic activities and I am thankful to you for the same.

The atmosphere of ‘Clean Poondi, Green Poondi’ is highly congenial for higher learning. We are highly indebted to the teaching fraternity for their yeoman service, to the administrative machinery for its constant support and to the student community for its insatiable interest and involvement in studiously building this edifice of higher education and research.

We made a Memorandum of Understanding (**MoU**) with Redington **Elite Company, Chennai** to establish **Smart Learning Centre** to train our final year undergraduate students on soft skills to prepare for Placement. As a result of this, qualified students of all the disciplines have got trained from Dec 2018 to March 2019 by Soft Skill Trainers. For all UG students Soft Skill Training is offered as part of curriculum.

We are happy to share that in the integrated Thanjavur District, our institution is the first to have Radio Frequency Identification in our General Library with Open Source to Software (KOHA). This equips our students and also Research Scholars from outside to borrow books.

An amount of Rs.80,00,000 under the subject area: Life Science, Physical, Chemical and Mathematical Sciences sanctioned under **FIST** by the Ministry of Science & Technology, **Department of Science & Technology**, New Delhi is in effect.

I am equally delighted to announce that **1 Major**, funded by DST **2 Minor Project** funded by IARA and Grabs, **1 Minor** ongoing project funded by AICTE, Delhi and **3 National level Seminars** have been sanctioned during this academic year.

We are proud of making the vision of our Founder-President and our Secretary & Correspondent becoming a reality. This moment also makes us refresh our responsibility.

Again I extend my warm and hearty welcome to all the learned members of this Academic Council. I also appeal to you to put forth your valuable and constructive suggestions through detailed deliberations during discussions for the betterment of our esteemed institution towards achieving excellence in teaching, learning and evaluation.

Thank you all for your kind visit and patient hearing and active participation!

**Dr. R. Sivakumar,**  
Chairman,  
Academic Council

Ornamental fish keeping at home is emerging as one of the most popular hobbies in the world. Aquarium keeping is said to be the second largest hobby next to photography in the world. Aquarium fish and accessories industry is fast gaining importance due to its tremendous economic opportunities and prospects. Minimum requirement of space and/or attention compared to other pet animals is the reason for growing interest in keeping aquaria all over the world.

Aquarium fish keeping is a centuries-old popular hobby, growing interest in which has resulted in a steady expansion in its trade in more than 125 countries. With the increasing popularity of household aquariums, less than 1% of the global market for ornamental fishes belongs to the public aquaria sector, with the rest still confined to hobbyists.

The culture of ornamental fish is becoming a source of income day by day for the rural people and semi-urban areas. Few people in our country are maintaining their livelihood through ornamental fish culture. As part of the poverty alleviation measures, the Government of India launched the Swarnjayanti Gram Swarozgar Yojana (SGSY) in 1999 where the major emphasis is on self help group (SHG) formation, social mobilization and economic activation through Microcredit finance. These groups use participatory processes to provide opportunities for people to share knowledge, common experiences and problems. Through their participation, members help themselves and others by gaining knowledge and information and by obtaining and providing emotional and practical support. Now, ornamental fish farming is included as one of the activities of SHGs and also plays an important role to maintain livelihood of the local people.

For this purpose, we have signed an MoU with Angel Fish Farm (Pvt., Ltd.,) Near New Bus stand Thanjavur.

Biofertilizers are low cost, renewable source of plant nutrients which supplements chemical fertilizers. These are noting but selected strains of beneficial soil microorganisms cultured in the laboratory and packed in a suitable carrier. They can be used either for seed treatments or soil application. Biofertilizers generate plant nutrients like nitrogen and phosphorous through their activities in the soil or rhizosphere and make available to plants in a gradual manner. Biofertilizers are gaining momentum recently due to the increasing emphasis on maintenance of soil health, minimize environmental pollution and cut down in the use of chemicals in agriculture.

In rainfed agriculture, these inputs gain added importance in a view of their low cost, as most of the farmers are small and marginal and cannot afford to buy expensive chemical fertilizers. Biofertilizers are also ideal input for reducing the cost of cultivation and for practicing organic farming. There is a proposal that biofertilizer be defined as a substance which contains living microorganisms which colonies the rhizosphere or the interior of the plant and promotes growth by increasing the supply or availability of primary nutrients and of growth stimulus to the target crop, applied to seed plant surfaces or soil.

The curriculum on Biofertilizers is highly suitable to our Institution because nearly 80% of the students are hailing from remote and rural area. Their Prime work is agriculture. Because of introducing this programme the students become benefited in turn the family and local community became the ultimate beneficiary. The students after completing this programme they can start small scale industry as an entrepreneur. Since, this is a Skill based programme it will fulfil the objectives of our Government Policy.

For this purpose, we have signed an MoU with Krishicare Bioinpuuts, No.24/5, First Cross Karpaga Vinayagar Street, Musiri, Trichy (Dt)

Co-ordinator of English

Thanjavur in Tamil Nadu is a UNESCO World Heritage Site. Temple building, sculptures, music, dance, paintings, folk arts, handicrafts, literature, all flourish in Thanjavur. Hence the temple town is also a collector's delight, with four distinctive handicrafts that have won GI (geographical indication) tags. This includes the **Tanjore painting style**, **Tanjore metal art plates** created as gift items are made of silver, brass, copper and sometimes bronze **and** Thalaiyatti Bommai are dancing bobble-headed dolls **made of Papier Mache** and clay, specific to this region.

Thanjavur arts and paintings are the town's most famous product, instantly recognizable for their vivid colours, rich gold leaf work and glass bead inlay. Painted on wooden panels, their subjects are religious, representing Hindu gods and goddesses, and episodes from religious texts and secular themes. The actual gold encrusted paintings have an unparalleled sheen and richness about them. Learning the traditional materials used for paintings and getting training of one year in cut glass art craft paintings of the existing sketches of some animal figures and Gods figures, by learning free hand drawing, the learner can develop the craft using modern technique without affecting the aesthetic value of the paintings and bring out various religions. The industry can enhance the dignity, beauty, creativity, culture and skills of the learners and also provide them with employability skills.

The artisans now take a turn and to avoid the death of art, it is mandatory to develop this skill, among the youth. If offered as a Skill development Course in Academics, this provides a bright opportunity for all those interested students with latent skills. After the completion of the Course, there are illimitable ways of joining the local industries and enterprises or to become a prosperous entrepreneur as the dolls are available everywhere—from stores to makeshift stalls. This art form was borne out as a utilitarian and has since evolved into being used as decorative home decors. The range of utilitarian products and decorative pieces is immense. Hence it provides a path to sound economy of the individual in particular and of the state in general.

For this purpose, we have signed an MoU with Chola Enterprises (An ISO certified Company), Thanjavur.
